From : OFFICER [REDACTED]

Subject: DAVID AUSTIN LYNCH;  
UFAP - CARRYING LOADED FIREARM IN VEHICLE  
"PRELIMINARY INQUIRY"  
OO: SC

The SACRAMENTO POLICE DEPARTMENT (SPD) [REDACTED] has requested the assistance of the FBI in locating and apprehending the captioned subject. Information to date does not clearly establish the "interstate" element required in the Unlawful Flight Statute.

b7E

The following facts indicate that there is a possibility of unlawful interstate flight to avoid prosecution or confinement:

The SPD [REDACTED] requested assistance from the VCFTF to determine if LYNCH fled the State. LYNCH is a Skinhead member and an active Nation member from Florida and wanted for carrying a loaded shotgun in a vehicle. [REDACTED] had intelligence information that [REDACTED]

b6  
b7C  
b7E

[REDACTED] detectives advised if [REDACTED] were supposed to be made. LYNCH was stopped outside the Courthouse with a shotgun in the car. He was not arrested at that time. A warrant was issued the following day and detectives of the [REDACTED] [REDACTED] believed LYNCH may have fled to Florida. (X-2)

Special Agents and officers of the Sacramento Violent Crimes/Fugitive Task Force (VCFTF) will conduct a prefederal warrant investigation to determine if the captioned fugitive has fled interstate. If that investigation determines that there is probable cause that the fugitive fled interstate, the task force members will attempt to obtain a UFAP/UFAC warrant.

The Sacramento County District Attorney has stated that he will extradite any subject arrested on a felony warrant which felony falls within the general areas of underlying criminal violations worked by the VCFTF. It is anticipated that [REDACTED]

The American Front (AF) is an established White Supremacist organization that has existed in the United States for several decades. Its members openly acknowledge a coming race war and view themselves as protectors of the white race. AF routinely conducts weapons training in preparation for this race war with the stated intent of killing minorities.

As a background the following is a synopsis of the DAVID LYNCH investigation:

David Austin Lynch, DOB 09/26/1970, was a member of the AF and resided in the Sacramento area. Law enforcement sources received intelligence suggesting Lynch was involved in the leadership of the American Front, West Coast. Lynch was also funding American Front activities in Florida and California. There was evidence of Lynch being in steady contact with individuals who are/were currently involved in criminal activities and evidence he had ordered members of the group to commit criminal acts. This investigation was opened 11/09/2009, due to the above facts.

Lynch was suspected of arranging different illegal weapons deals, and of hiring White Supremacist individuals to transfer these weapons. [REDACTED]

Request:

The Forensic Audio, Video and Image Analysis Unit was requested, through an electronic communication dated April 2, 2012, by SA [REDACTED] of the Sacramento Field Office, to enhance the Q1 and K1 videos, and compare the questioned vehicle depicted on the Q1 DVD-R to the known vehicle, as depicted on the K1 CD-R.

b6  
b7C

Opinions and Conclusions:

Due to a lack of visible individualizing characteristics, the questioned vehicle depicted on the Q1 DVD-R could be neither identified nor eliminated as being the known vehicle, as depicted on the K1 CD-R.

Summary of Examination:

The Q1 and K1 videos were reviewed, and relevant portions of the videos were processed and printed. The questioned vehicle depicted in the Q1 images was then compared to the known vehicle, as depicted in the K1 images.

Details of Examination:

The Q1 and K1 videos were reviewed, and relevant portions of the videos depicting both the questioned and known vehicles were processed and printed. The questioned vehicle depicted in the Q1 images was then compared to the known vehicle, as depicted in the K1 images. Similarities were noted between the two vehicles, including the body shape, the general shape of the wheel wells, and the shape and position of the tail lights. A difference was also noted in the general tonality along the sides of the vehicles; however, it could not be determined whether this was a true difference, or whether it represents an inconsistency created by scene lighting conditions. Therefore, due to a lack of visible individualizing characteristics, the questioned vehicle depicted on the Q1 DVD-R could be neither identified nor eliminated as being the known vehicle, as depicted on the K1 CD-R.

The processed images were recorded to a DVD-R, which was labeled DE1. Two sets of 10 processed images were also produced.

Disposition of Evidence:

The Q1 DVD, the K1 CD, the DE1 DVD, and the two sets of prints will be forwarded to your office with this report.
